Details:

Pain- Less is made up of a synergistic blend of herbs that work naturally with the body to relieve pain and inflammation of the joints.

- Wintergreen and White Willow Bark contain natural salicylates that provide a mild analgesic known to naturally relieve pain.
- Horsetail has been used traditionally to relieve rheumatic conditions, including arthritis.
- Yucca helps relieve arthritic pain by acting as a wetting agent to provide lubrication to the joints and help arthritic joints maintain range of motion.
- Valerian Root helps relieve arthritic pain by relaxing the nerves.

Our formula aids in the reduction of inflammation and pain utilizing natural herbs and supplements free from side effects that restore mobility. Wintergreen and white willow bark synergistically work hand in hand to create a natural form of salicylic acid that is a natural pain reducer, anti-inflammatory, and fever reducer.

SUPPLEMENT FACTS

Serving size : 2 capsules (583 mg. capsule)

Amount Per Serving	%DV
Magnesium (Salicylate).....800 mg.	200%
Proprietary blend: Shavegrass (Horsetail herb), Yucca, White Willow Bark, Valerian root, and Wintergreen.	
Contains: EDS® (Amylase, Protease, Lipase & Cellulase). AdPT®: Eleuthero, Reishi (Ganoderma Mushroom), Jiaogulan, Cordyceps & Rhodiola Rosea.	
Other Ingredients: Gelatin capsule.	

The natural benefits of these compounds are reputed to have longer lasting effects than similar synthetic or chemically altered compounds created in a lab though it may take longer to act, but without adverse reactions.

While valerian relaxes the nerve and reduces pain, yucca acts as a wetting agent providing lubrication to the joints and maintaining range of motion. It also contains several physiologically active phytochemicals and is a rich source of steroidal saponins. Saponins have diverse biological effects including anti-protozoal and anti-arthritic activities. Shave grass, rich in silica helps to soothe and strengthen connective tissue and is a vital component for bone and cartilage formation. Improved cartilage production helps to decrease inflammation and combat joint pain, gout muscle cramps, arthritis, hemorrhoids, spasms and rheumatism. These ingredients combine synergistically to create an exceptional formula for relief of painful arthritis, increased joint mobility, and improved lubrication.
